

Artisan

The Artisan® line of SCA++ products from Port Hawkesbury Paper offer the look and feel of true old-world craftsmanship. Your images will always be masterpieces on Artisan.

When brightness, excellent print surface and on-press performance are essential — and they always are — the Artisan SCA++ paper is ideal. Comparable in quality and runnability to a lightweight coated groundwood #5 sheet, Artisan is available in a variety of basis weights in both offset and rotogravure.

Located on the shores of the Strait of Canso in Nova Scotia, Port Hawkesbury Paper is the leading provider and low-cost producer of supercalendered (SC) paper in North America. The SC machine at Port Hawkesbury is capable of delivering the highest quality and most efficient paper production available. Port Hawkesbury Paper's Artisan® Plus, Artisan®, Prominence® Plus, Prominence® and Maritime® lines offer a wide selection of supercalendered options to publishers and printers who are looking for premium quality paper. All Port Hawkesbury papers are available with FSC®, SFI® or PEFC® certified options and are used in retail inserts, catalogs, magazines, circulars and coupons.

Port Hawkesbury Paper is working in conjunction with West Linn Paper Company to provide an extensive product offering of supercalendered papers up to coated freesheet #2 grades.
